

learning from medical errors pdf

Background In the current debate over tort reform, critics of the medical malpractice system charge that frivolous litigation "claims that lack evidence of injury, substandard care, or both ...

Claims, Errors, and Compensation Payments in Medical

Medical error is not included on death certificates or in rankings of cause of death. Martin Makary and Michael Daniel assess its contribution to mortality and call ...

Medical error"the third leading cause of death in the US

Deep learning algorithms, in particular convolutional networks, have rapidly become a methodology of choice for analyzing medical images. This paper reviews the major deep learning concepts pertinent to medical image analysis and summarizes over 300 contributions to the field, most of which appeared in the last year.

A survey on deep learning in medical image analysis

Learning disability or a learning disorder is a condition in the brain that causes difficulty and struggle to comprehend or process information and can be caused by several different factors. Given the "difficulty learning in a typical manner", this does not exclude the ability to learn in a different manner. Therefore, some people can be more accurately described as having a "learning ...

To Err is Human: Building a Safer Health System. Summary

Modern day simulation for training was first utilized by anesthesia physicians in order to reduce accidents. When simulation skyrocketed in popularity during the 1930s due to the invention of the Link Trainer for flight and military applications, many different field experts attempted to adapt simulation to their own needs. Due to limitations in technology and overall medical knowledge to a ...
