A skill is the ability to carry out a task with determined results often within a given amount of time, energy, or both. Skills can often be divided into domain-general and domain-specific skills. For example, in the domain of work, some general skills would include time management, teamwork and leadership, self-motivation and others, whereas domain-specific skills would be used only for a ...

Social skills are the means by which people can make connections to others, exchange information and ideas, make their needs and desires known, and enter into and maintain relationships with others, notes Kiddie Matters, a website that offers free materials to help young children develop social and emotional skills. The Bureau for At-Risk Youth agrees, noting that children have different levels ...
