

marriages and families changes pdf

Marriage, also called matrimony or wedlock, is a socially or ritually recognised union between spouses that establishes rights and obligations between those spouses, as well as between them and any resulting biological or adopted children and affinity (in-laws and other family through marriage). The definition of marriage varies around the world not only between cultures and between religions ...

Americas and Europe. In the Americas and Europe, in the 21st century, legally recognized marriages are formally presumed to be monogamous (although some pockets of society accept polygamy socially, if not legally, and some couples choose to enter into open marriages). In these countries, divorce is relatively simple and socially accepted.

Types of marriages - Wikipedia

From 9 December 2017, sex or gender no longer affects the right to marry under Australian law and same-sex marriage became legal in Australia.

Marriage equality in Australia | Attorney-General's Department
